

MIDLAND COLLEGE
SYLLABUS
ABDR 1431
(2-4)
BASIC AUTOBODY & REFINISHING

Course Description: An introduction to current refinishing products, shop safety, and equipment used in the automotive refinishing industry. Emphasis on surface preparation, masking techniques, and refinishing of replacement parts.

Students MUST actively participate by completing an academic assignment required by the instructor by the official census date. Students who do not actively participate in an academically-related activity will be reported as never attended and dropped from the course

Text, References and Supplies: Required: **Cengage Unlimited digital e-book--** Collision Repair and Refinishing: A Foundation Course for Technicians, 3rd Edition, Thomas & Jund

Students will need to provide: safety glasses, face mask, and paint suit.

Course Goals/Objectives: At the completion of this course, with appropriate study and practice the student will be able to acquire the following technical skills. Using industry refinishing tools: perform surfaces preparation and masking skills: refinish trim: and apply personal and environmental safety procedures.

- Identify basic auto body tools and be able to use them correctly
- Spot weld using a mig welder.
- Properly repair a damaged body panel.
- Identify the basic types of the many body fillers and their proper uses.
- Properly set-up, adjust and use an H.V.L.P. gravity fed spray gun.
- Properly refinish a body panel by mixing and applying primer, single stage or two stage paints. (Advanced students may get the opportunity to complete a total vehicle refinishing project).
- Properly color-sand, buff and polish.

Students may perform the following tasks in order to maintain safe lab and classroom spaces:

- Participate in shop and classroom maintenance which may include, but not limited to sweeping, mopping, disposing of trash, cleaning work benches, organize tools and equipment, organize tool room, disinfect classroom tables and chairs.
- Disassemble discontinued lab training vehicles or equipment for salvage.
- Repurpose lab vehicles to be utilized in lab assignments.
- Other course related tasks as assigned by instructor.

BASIC AUTOBODY & REFINISHING

Student Contributions and Class Policies:

1. Student/Participant must furnish a set of approved safety eye glasses, face mask, and paint suit.
2. Student/Participant must understand class attendance is critical; therefore, three consecutive absences or five total absences may be considered justification for failure or dismissal from class.
3. Punctuality, being prepared for class, being alert, participating pro-actively and exhibiting a respectful and appropriate attitude will be required.

Evaluation of Students:

10% = Attendance/Punctuality
10% = Professionalism/Participation
25% = Mid-term & Final exams
40% = Skills Objectives (Lab Assignments)
15% = Knowledge Objectives (Classroom Assignments)
100% Total

90 and above	A
80-89	B
70-79	C
60-69	D
59 and below	F

Course Schedule: This class meets for 2 lecture hour and 3 lab hours per week.

SCANS Information: SCANS skills are taught and/or reinforced in automotive courses. The student must locate, read, interpret and understand instruction information and direction materials. The participant must communicate thoughts, ideas and information through verbal and written mediums. Practical arithmetic and mathematics will apply continually throughout automotive technology training. Listening, interpreting, and responding to verbal communications and instructions as well as speaking in response to questioning will be a daily involvement. Thinking, reasoning, visualizing and problem solving are required assets to the automotive technician. The student/participant must display responsibility, self-management and honesty.
