Notice: Students MUST actively participate by completing an academic assignment required by the instructor by the official census date. Students who do not actively participate in an academically-related activity may be reported as never attended and dropped from the course.

Course Description:

This course is designed to produce student proficiency in body organization, the skeletal system, the muscular system, and the nervous system. Laboratory work will include dissection of a mammal. Dissection required. BIOL 1406 highly recommended. Prerequisite: TSI complete in Reading and Math.

Core Objectives:

This course fulfills four hours of the Life and Physical Science requirement in the Midland College **Core Curriculum**. The Core Curriculum is a set of courses that provide students with a foundation of knowledge, skills and educational experiences that are essential for all learning. The URL for the Core Curriculum is available in the [Midland College Catalog](#). As part of the core, this course addresses the following four objectives:

Critical thinking skills – Students will demonstrate critical thinking by analyzing and applying appropriate terminology and knowledge of various levels of organization as they pertain to both human anatomy and physiology and the interrelatedness of each in the maintenance of homeostasis.

Communication skills – Students will demonstrate communication skills in written, oral, and visual form within the classroom setting through instructor posed questions, collaborative peer assignments, and exams.

Empirical and Quantitative skills – Students will demonstrate empirical and quantitative skills by analyzing real world examples of applied anatomy and physiology via course assignments and exams.

Teamwork – Students will demonstrate teamwork skills by functioning as collaborative and cooperative small groups to answer instructor posed questions and/or complete assignments.

Text, References and Supplies:

Lecture Textbook: Martini and Nath, Fundamentals of Anatomy & Physiology – Text Only, 11th ed., Pearson/Benjamin Cummings. ISBN: 978-0-13-439602-6

Computer: Access to a working computer throughout the course with the ability to access the internet and Canvas.

Materials Needed: *Hands On Lab* Lab Kit.

Student Learning Outcomes:

It is expected that the student will acquire detailed knowledge of anatomical terminology, structure and organization of the human body, molecular biology, cytology, histology, the human skeletal system, musculature and muscle actions, the human nervous system including the brain and spinal cord, the eye and the ear.

Student Contributions, Responsibilities and Class Policies:

It is the student's responsibility to read and understand the official Midland College attendance and withdrawal policies as stated in the college catalog. Attendance is required. Because this is strictly an internet course, attendance will be documented throughout the course by participation in academically related activities at stated deadline. The last day for withdrawal is published in the catalog and the current course schedule. To drop a course, the student must complete an [official withdrawal form](#) with Student Services.

Midland College does not tolerate scholastic dishonesty or academic misconduct in any form. Please read the [MC Student Handbook](#) on this subject.

Students are strongly encouraged to seek extra help if they are having difficulty with the assigned material.

Withdrawal Policy:

Students who have enrolled in a Texas public institution of higher education as a first-time freshman in fall 2007 or later are permitted to drop no more than six courses during the entire undergraduate career. This limit includes all transfer work taken at a Texas institution of higher education and to second baccalaureate degrees. This statute was enacted by the State of Texas in spring 2007 (Texas Education Code 51.907). Any course that a student drops after Census Day is counted toward the six-course limit if "(1) the student was able to drop the course without receiving a grade or incurring an academic penalty; (2) the student's transcript indicates or will indicate that the student was enrolled in the course; and (3) the student is not dropping the course in order to withdraw from the institution." Please visit the [Midland College Catalog](#)

Scholastic Dishonesty:

Midland College does not tolerate scholastic dishonesty or academic misconduct in any form. Please read the MC Student Handbook on this subject. Please visit the

Midland College Catalog. Students are strongly encouraged to seek extra help if they are having difficulty with the assigned material.

Evaluation of Students:

The course grade will be determined as follows:

Lecture average 60%
Laboratory average..... 40%

Grades will be assigned as follows: A=90-100; B=80-89; C=70-79; D=60-69; F=below 60. There will be no exceptions to these grade ranges.

Lecture grades will be assessed at the instructors' discretion within the following parameters:

Daily grades (may include, but not limited to participation, quizzes, or other activities) 0-15%
Assignments (may include, but not limited to homework, projects, or other activities) 0-15%
Exams: 1-6 exams may be given during the semester 45-100%
Final Exam: 0-25%

Exams, which may include a comprehensive final, will be given at the discretion of the instructor. Administration of make-up exams will be at the discretion of the instructor.

ADA Statement:

Midland College provides services for students with disabilities through Student Services. In order to receive accommodations, students must place documentation on file with the Counselor/Disability Specialist. Students with disabilities should notify Midland College prior to the beginning of each semester. Student Services will provide each student with a letter outlining any reasonable accommodations. The student must present the letter to the instructor at the beginning of the semester.

Midland College does not discriminate on the basis of race, color, national origin, sex, disability or age in its programs and activities. The following individuals have been designated to handle inquiries regarding the non-discrimination policies: **Tana Baker, Title IX Coordinator/Compliance Officer, 3600 N. Garfield, SSC 242, Midland, TX 79705, (432) 685-4781, tbaker@midland.edu; Natasha Morgan, Director Human Resources/Payroll, 3600 N. Garfield, PAD 104, Midland, TX 79705, (432) 685-4534, nmorgan@midland.edu.** For further information on notice of non-discrimination, visit <http://wdcrobcolp01.ed.gov/CFAPPS/OCR/contactus.cfm> or call **1 (800) 421-3481**.
