

Midland College
Syllabus
MHSM 4561
Health Information Management Capstone and Clinical

Notice:

For **Online** classes, students **MUST** actively participate by completing and submitting an academic assignment by the official census date. Students who do not do so will be dropped from the course.

Course Description:

This course is a health-related work-based learning experience that enables the student to apply specialized occupational theory, skills and concepts. Direct supervision is provided by the clinical professional

Text, References, and Supplies:

Professionalism in Health Care: A Primer for Success, 5th Edition, Sherry Makely, Ph.D., RT-R, Prentice Hall Publisher 2012. ISBN-13: 978-0-13-441567-3.

Professional Review Guide for the RHIA/RHIT Examination, 2018 Edition, with online access. Patricia Schnering, RHIA, CCS, Cengage Learning. ISBN-13: 9781337397414.

OTHER SUPPLIES: Three ring binder (2" or 3" width)
Notebook dividers for each section of Table of Contents

This course must be completed using a laptop or desktop computer with a webcam. The software used for this course is not supported using cell phones or tablets such as iPads.

Software and References Basic Computer Specifications for Canvas can be found at: [Basic Computer Specifications for Canvas](#).

Basic instructions on how to use Canvas is located within the Canvas course: Canvas Student Connection.

A Lock Down Browser and LDB+Monitor are required for students to use for designated gradable items: [Resondus Lockdown Browser Download Link](#). A fee will be paid by the student per course to add the Monitor feature for proctoring the final or other exams. It is the responsibility of the student to pay to add Monitor to LDB prior to the exams due date.

Turn It In - TII software is used when students have to write and submit papers for grading to evaluate authentic work.

All assignment papers submitted are to be written in APA format.

The **Purdue Online Writing Lab** is used as a resource for students for APA format writing of papers and citing resources/references used in assignments. The following link is to be used for any assignments or papers within this course

<https://owl.english.purdue.edu/owl/resource/560/01/>

Supplies for Virtual Office:

PC or laptop with audio and video enabled capabilities or equipment

Technical skills students must have to succeed in the course:

Using the learning management system Canvas

Using email with attachments

Creating and submitting files using Microsoft office and other applications

Copying and pasting when using software

Downloading and installing software or plugins

Using spreadsheet software

Using presentations and graphics programs

Using online books and resources

Using search engines for online research

Using online communication and virtual office software

Creating videos and submitting them in Canvas

Using publisher online sites (book and EHR) to complete course work

Students Learning Outcomes and Core Competencies:

Upon Completion of this course students should be able to:

Conduct analysis to ensure documentation in the health record supports the diagnosis and reflects the patient's progress, clinical findings, and discharge status, and apply policies and procedures to ensure the accuracy of health data.

Support the definitions for and apply clinical vocabularies and terminologies used in the organization's health information systems, and verify timeliness, completeness, accuracy, and appropriateness of data and data sources for patient care, management, billing reports, registries, and/or databases.

Summarize and apply organization-wide health record documentation guidelines, apply policies and procedures to ensure organizational compliance with regulations and standards, and maintain the accuracy and completeness of the patient record as defined by organizational policy and external regulations and standards.

Analyze organizational results of accreditation, licensing, and/or certification surveys.

Collaborate with the facility to develop and present a project using the electronic applications and work processes that support clinical classification and coding, and abstract and maintain data for clinical indices/databases/registries. (Project)

Demonstrate competency by collecting, organizing, and presenting data for quality management, utilization management, risk management, and other related studies, and compute and interpret healthcare statistics.

Apply Institutional Review Board (IRB) processes and policies, and use specialized databases to meet specific organization needs such as medical research and disease registries.

Explain systems that apply confidentiality and security measures to protect electronic health information, and protect data integrity and validity using software or hardware technology.

Utilize technology, including hardware and software, to ensure data collection, storage, analysis, and reporting of information; use specialized software in the completion of HIT processes such as record tracking, release of information, coding, grouping, registries, billing, quality improvement, and imaging; and use appropriate electronic or imaging technology for data/record storage.

Evaluate and apply information system policies and procedures required by national health information initiatives on the healthcare delivery system, participate in the implementation of legal and regulatory requirements related to the health information infrastructure; apply policies and procedures for access and disclosure of personal health information, release patient-specific data to authorized users, maintain user access logs/systems to track access to and disclosure of identifiable patient data, conduct privacy and confidentiality training programs; and apply and promote ethical standards of practice.

Evaluate the design and generate reports using appropriate software; maintain archival and retrieval systems for patient information stored in multiple formats; and coordinate, use, and maintain systems for document imaging and storage.

Student Contributions, Responsibilities and Class Policies:

Academic Honesty:

Students are expected to follow the Academic Honesty policy of Midland College. Using textbooks, assignments and other students, or assistance from others while taking an exam is cheating. Cutting and pasting without proper citation and passing off another's work as your own is cheating. Any student cheating may be removed from the course, given an "F" and

reported to the College. Plagiarism will not be tolerated. For more information, review [Student Conduct/Misconduct](#) in the MC catalog.

Evaluation of Students:

Accumulation of points equating to a letter grade will be assessed using gradable items including assignments, exams/quizzes/tests, discussion boards, semester project, and final exam.

Students will receive a final letter grade based on the following scale:

A = 90 to 100%

B = 80 to 89%

C = 70 to 79%

D = 60 to 69%

F = 59% or less

Students must pass all HITT courses with a grade of “C” or better to meet program requirements.

Course Schedule:

See Course Scheduling within Canvas

LICENSURE ELIGIBILITY NOTIFICATION:

Completion of Midland College degrees and/or certificates does not guarantee eligibility to take a certification/registry/licensure examination. The eligibility of each person is determined on an individual basis by the regulatory body of the specific discipline. If a student has been convicted of a crime other than a minor traffic violation, physical or mental disability/illness, hospitalization/treatment for chemical dependency within the past five years, current intemperate use of drugs or alcohol, or a previous denial of a licensure or action by a licensing authority, the student will need to contact the specific regulatory body for an individual ruling. Some programs require a criminal background check and urine and drug screen.

AMERICANS WITH DISABILITIES ACT (ADA):

The Americans With Disabilities Act (ADA) and Section 504 of the Rehabilitation Act require that no otherwise qualified person with a disability be denied access to, or the benefits of, or be subjected to discrimination of any program or activity provided by an institution or entity receiving federal financial assistance. It is this Section 504 mandate that has promoted the development of disability support service programs in colleges and universities across the country. Sub-part E of Section 504 deals specifically with this mandate for institutions of higher education.

While it does not require development of special educational programming, for students with disabilities, it does require that an institution (public or private) be prepared to make appropriate academic adjustments and reasonable accommodations to allow the full participation of students with disabilities in the same programs and activities available to non-disabled students.

Disabilities may include things such as physical/mobility problems such as paralysis or academic problems like learning disabilities. Some examples of accommodations are extra time for tests, testing in a quiet location, and providing architectural access to buildings.

Midland College provides services for students with disabilities through Student Services. In order to receive accommodations, students must place documentation on file with the Counselor/Disability Specialist. Students with disabilities should notify Midland College prior to the beginning of each semester. Student Services will provide each student with a letter outlining any reasonable accommodations. The student must present the letter to the instructor at the beginning of the semester.

NON-DISCRIMINATION STATEMENT:

Midland College does not discriminate on the basis of race, color, national origin, sex, disability or age in its program and activities. The following individuals have been designated to handle inquiries regarding the non-discrimination policies:

Tana Baker

Title IX/504 Coordinator and Compliance Officer
3600 N. Garfield, SSC 242
Midland, TX 79705
(432) 685-4781
tbaker@midland.edu
